□ INDUSTRIAL ROLLING LADDERS

Square Tube

These ladders roll with ease, yet lock securely in place while in use. They are ideal for a wide variety of warehouse, stockroom, maintenance and shop floor applications. Rugged square tube construction is 40% stronger than round tubing and welded sub assemblies for extra strength.

○ INDUSTRIAL ROLLING LADDERS

Round Tube

Industrial-grade ROLL-EZY ladders are constructed of durable, welded steel and are suited to a wide variety of stockroom, warehouse, maintenance and shop floor applications. These ladders are available standard with your choice of EZY Tread®. Grip Strut® or optional anti-slip vinyl surface tread. Ideal for general industrial use, stock picking, and maintenance needs.

INDUSTRIAL TRUCK LADDER

Finally, a ladder that provides secure, safer access to semi-trailers when docking bays are full or unavailable. Ideal for retail and stand alone facilities, this ladder offers the "trailer jumpers" a safer alternative.
